

Update: 2013 Wisconsin ACT 240

With the implementation of [2013 WI Act 240](#), the WI DSPS Credentialing Process for Physician licensure has changed in the following ways:

- The WI Statutes and Rules examination is no longer required;
- Because the Statutes and Rules Exam is not a requirement, the initial licensing fees have changed from \$150 (\$75 Initial Credential Fee (ICF)/\$75 Exam Fee) to \$75 (ICF);
- Applicants are now required to have 24 months of ACGME/AOA approved post-graduate training in order to meet the licensure requirements. If an applicant has completed at least 12 months of training and is continuing in the same program, the facility can provide verification of the 12 months of training along with an unrestricted endorsement that the applicant is expected to fully complete an additional 12 months. This will satisfy the 24 month post-graduate training requirement;
- The Visiting Professor permit has changed to a Visiting Physician license. The Visiting Professor credential is now limited to foreign educated physicians only; the Visiting Physician credential does not have that restriction;
- An Administrative Physician credential was created to allow Physicians to hold a medical license in a non-clinical capacity if their primary responsibilities are of an administrative or academic nature;
- The Temporary Educational Permit (TEP) has been replaced by the Resident Educational License (REL). With this change, the REL is now required for first year residents. Residents are eligible to continue with an REL until they complete 24 months of ACGME training and beyond at the discretion of their training program. The TEP previously did not allow first year residents to hold a TEP credential.

Chair's Corner

By Dr. Kenneth Simons

The noted philosopher Santayana said, "Those who forget the past are doomed to repeat it."

All of us who have been fortunate to practice the science and art of medicine for longer than just the past 15 years, are probably struck by the 'new' emphasis on medicine as a team sport as well as on significant efforts involving patient safety. Not that any of this is bad (it is actually quite good), but for those of us who trained in that earlier time, it does fail to represent to our current trainees our earlier pioneering efforts with teamwork and patient safety.

I dare say that all of our older colleagues (yes, I include myself) considered ourselves part of a team. I vividly recall receiving a call in my first month of internship in the Emergency Department about a seventeen year old on her way in who was about to deliver a baby. There was no time to get her to Labor and Delivery as she was crowning. Thank goodness for me that there was an experienced nurse with me who put her hands around my trembling ones, thereby allowing us to deliver a healthy baby boy. Clearly, this brand new intern was unprepared and could never have done it alone.

During my residency, I was always fortunate to consider myself a member of an interdisciplinary team caring for patients. The team was always there in the clinic or the OR and there was always respect between the disciplines: medicine, nursing, pharmacy, technicians, etc. Yes, things occasionally got testy (we are all human after all) but when the tense situation had resolved, we debriefed and apologized for any hurt we had caused.

Kenneth Simons

Wisconsin Prescription Drug Monitoring Program: Important Changes on the Horizon

The Wisconsin Prescription Drug Monitoring Program (PDMP) continues to provide physicians with a valuable tool to help combat prescription drug abuse. Through the PDMP, registered prescribers and their delegates can access their patients' controlled substance prescription histories, which can help guide clinical decision making about the prescribing of opiates and other controlled substances. Currently, over 12,000 prescribers, pharmacists, and their delegates have registered to access the PDMP database. Prescribers account for approximately 49% of registered users and have performed about 25% of the patient queries to date. While the number of patient queries performed each month continues to increase, the PDMP remains underutilized.

In order to optimize use of the PDMP, important changes are on the horizon. With the support of funding from a Centers for Disease Control Prescription Drug Overdose Prevention Grant through the Department of Health Services, enhancements will be made to the PDMP system. The enhanced PDMP system will emphasize usability in an effort to better integrate PDMP data into clinical workflow. Ease-of-use could become vitally important with forthcoming legislation ([Assembly Bill 364](#)) that would make use of the PDMP mandatory for prescribers before issuing controlled substance prescriptions. The legislation would also improve the quality of the data by requiring pharmacies to submit data to the PDMP within 24 hours of dispensing a controlled substance. Current law requires submission within seven days of dispensing.

To register for access to the PDMP database, visit: <http://dsps.wi.gov/pdmp/access/prescriber>. When prompted, enter "newacct" as your username and "welcome" as your password. Complete and submit the online registration form. If you have any questions while registering, please contact DSPS staff at PDMP@wisconsin.gov.

A wealth of useful information is available on the Department of Safety and Professional Services Website at: <http://dsps.wi.gov>

Do you have a change of name or address?

Licensees can update name or address information on the Department website at:

<https://online.drl.wi.gov/UserLogin.aspx>

Please note that confirmation of change is not automatically provided. Legal notices will be sent to a licensee's address of record with the Department.

Telephone Directory:

Call the Department of Safety and Professional Services toll-free (877) 617-1565, or (608) 266-2112 in the Madison area to connect to the service you need.

Medical Examining Board Membership and Staff Assignments

The Medical Examining Board consists of 13 members. The members are appointed by the Governor and confirmed by the Senate.

Board Members:

Kenneth Simons, M.D., Chairperson (Milwaukee)
Timothy Westlake, M.D., Vice Chairperson (Hartland)
Mary Jo Capodice, D.O., Secretary (Sheboygan)
Greg Collins, Public Member (Ashwaubenon)
Rodney Erickson, M.D., Physician Member (Tomah)
Suresh Misra, M.D., Physician Member (Milwaukee)
Carolyn Ogland Vukich, M.D., Physician Member (Madison)
Michael Phillips, M.D., Physician Member (Oconomowoc)
David Roelke, M.D., Physician Member (Hartland)
John Tripoli, Public Member (Elm Grove)
Sridhar Vasudevan, M.D., Physician Member (Belgium)
Russell Yale, M.D., Physician Member (Fox Point)
Robert Zondag, Public Member (Delafield)

Information on how to apply for appointment to the Wisconsin Medical Examining Board can be found through the Office of the Governor:

<http://walker.wi.gov/governor-office/apply-to-serve/boards-commissions>

Department of Safety and Professional Services

Administrative Staff:

Thomas Ryan, Executive Director
Amber Cardenas, Legal Counsel
Nifty Lynn Dio, Bureau Assistant

Executive Staff:

Dave Ross, Secretary
Jonathan Barry, Deputy Secretary
Eric Esser, Assistant Deputy Secretary

The dates and times of the Medical Examining Board meetings are announced on the DSPS website at <http://dsps.wi.gov>. Meeting agendas are posted approximately one week prior to the meeting.

From Chair's Corner Page 1

I recently had the good fortune to hear Dr. Leonard Marcus speak about swarm intelligence and how a colony of ants (who have been around longer than humans) are able to accomplish tasks for which a solitary ant is absolutely inept. The message was clear, working in teams we can accomplish so much more than any single individual. As for patient safety, long before there were timeouts in the operating room, we did site marking in my residency to prevent removal of the wrong eye. In addition, we apologized to families for an outcome or error and did not need a law to simply express our innate humanity to our patients and their families for an unanticipated or less than desirable outcome. My faculty instructed us to do the right thing and I don't for a minute believe that this was unique to my training facility. Rather, I'm willing to bet that those of you who trained in that time period have similar

stories to tell. So, let's embrace and champion these new efforts at inter-professional education and patient safety but let us not think for a moment that this is all brand new. In this case, repetition is a good thing, but we should not forget, and more importantly, should respect the earlier endeavors upon which the current efforts are building.

As David Foster Wallace noted in his commencement address at Kenyon College in 2005, "There are these two young fish swimming along and they happen to meet an older fish swimming the other way who nods at them and says, "Morning boys. How's the water?" And the two young fish swim on for a bit, and then eventually one of them looks over at the other and goes "What the h*** is water?" Like the two young fish, we can go our whole lives being completely oblivious to the world around us and that which came before us. But it doesn't mean we should.

Current Name and Address Required

All applicants and recipients of a credential are required by Wisconsin Statute to notify the Department of Safety and Professional Services (Department) when they change their name or address from that most recently provided to the Department. The applicant or credential holder has 30 days to notify the Department from the date the change is made.

Failure to comply in a timely manner may result in a \$50 forfeiture. Please keep in mind that if you do not provide the Department with name and address changes, you may not receive important information such as complaint and investigation notices concerning your credential. The Department is only legally required to try to contact you at your last known address as indicated in Department records.

Finally, it is considered "unprofessional conduct" and subject to discipline on your credential if you fail to cooperate in a timely manner with a Board investigation. So if you fail to update your name and address, you take the chance of not receiving important correspondence from the Department, triggering the "unprofessional conduct" provisions. See Wis. Stat. §§ [440.035](#), [440.11](#) and Wis. Admin. Code § [Med 10.03\(3\)\(g\)](#). You can update your name or address via the Department website at <http://dsps.wi.gov>.

Enforcement Actions of the Medical Examining Board

The Medical Examining Board, with help from staff at the Department of Safety and Professional Services, can take action against licensed professionals around the state to help protect the profession and the citizens of Wisconsin. You may search for any of the Board Orders listed below on the Department's website by using this link:

Board Order Search: <http://dsps.wi.gov/Other-Services/Lookup-Orders-Disciplinary>

Disciplinary actions are reported to the National Practitioners Data Bank. Available options to the Board are:

Reprimand - A public warning of the licensee for a violation.

Limitation of License - Imposes conditions and requirements upon the licensee, imposes restrictions on the scope of practice, or both.

Suspension - Completely and absolutely withdraws and withholds for a period of time all rights, privileges and authority previously conferred by the credential.

Revocation - To completely and absolutely terminate the credential and all rights, privileges and authority previously

conferred by the credential.

Non-disciplinary actions are not reported to the National Practitioners Data Bank. Available options to the Board are:

Administrative Warning - Issued if violation is of a minor nature, a first occurrence and the warning will adequately protect the public. The issuance of an Administrative Warning is public information, however the reason for issuance is not.

Remedial Education Order - Issued when there is reason to believe that the deficiency can be corrected with remedial education, while sufficiently protecting the public.
