Summary of Statutory Changes Arising from Joint Finance Committee (JFC)
Motion #189

Michael Berndt asked the Board to review the memo and statutory language related to the
to changes to the Chiropractic practice that was included in the agenda on starting 36. The
issues that need to be addressed will be address in the order set forth by the change in the
statute.

Presentation Regarding Chiropractic State Exam Beginning Jan 1, 2001 (26:00)

Russ Leonard, Executive Director - Wisconsin Chiropractic Association addressed the
Board.

He informed the Board that Chiropractic care is not included in any of the discussion
related to health care reform. It is their goal to provide better quality, ethical care.

He told the Board that the quality of chiropractic care has decreased since the Board
chose to discontinue the use of a state exam for licensure. He explained to the Board that
the quality of the preceptors that the Board has approved has dramatically decreased. He
indicated that the licensee will cover the cost of the exam that fairly reflects the patient
expectations and that the cost of the exam would be spread over a number of years.

He then discussed the qualifications of chiropractic assistants. This is a title that does not
have an official definition. Anyone that works with a chiropractor can, at this time, call
themselves a chiropractor. There are a group of people that have trained themselves and
call themselves Chiropractic Technicians. There is not a national standard for a
chiropractic technician or assistant. He indicated that there are specific duties that can be
delegated but that, since the schools train in much more than that, the doctors are going a
step further and delegation duties under the doctors license that are not part of the duties
that can be delegated to anyone other than another licensed chiropractor.

Additionally, there are competitive challenges for chiropractic providers. The education
requirements for those assisting chiropractors are much less than those assisting physical
therapists, nurses or doctors.

If someone has been officially trained as a Chiropractic Technician they will be titled as
such and will have other educational, 6 hours of CE and other requirements for licensure.
He asked that they waive the education requirement for the time period of July 1, 2010
through December 16, 2010 (the start of the new licensure period).

Yolanda suggested that the process that the Wisconsin Chiropractic Association should
have included the Board prior to approaching the legislature. Russ Leonard agreed that
they could have done things differently but chose not to.
Dr. Silverman pointed out that the ACA was missing as a program sponsor at 446.028 of the statute but Mike Berndt reminded the Board that the ACA is included in the administrative rules for the Chiropractic Examining Board so they could still be used.

Russ Leonard explained the update to the Chiropractic Radiology Technician credential. Steven Silverman indicated concern with the CE hours being the same for all forms of assistants regardless of the scope of license that they are practicing under. Russ Leonard then indicated that the CE courses that they are planning are more advanced training than the CRTs will be required to take prior to licensure.

He then explained that there is an abuse of waiver of insurance copay due to hardship. The patient would be required to give the clinic a statement of hardship so that, if the Board would ever want to review, the documentation would be available. The hardship must be legitimate but does not require proof by way of tax returns or pay stubs or the like.

The statute now includes a provision whereby the Chiropractor has a duty to refer a patient to a physician if the service needed would be better handled by a different health care provider.

Secretary Jackson indicated that the Role of the Department and the Role of the Board is very different from the role of the association and that, within the context of the law, the department may be advising the Board toward missions that are not the same mission of the association.

**PUBLIC COMMENTS**

- Gail Hittrick, President, Moraine Park Technical College (MPTC). MPTC supports the concept of an exam for Chiropractic Technicians. They want to make sure that the requirements are consistent with what is happening nationally. She distributed literature from the associate degree program offered at MPTC.
- Paul Gabriel told the Board that the titles and associated responsibilities need to be consistent across the boarders. He spoke with Federation of Chiropractic Examining Boards. He understood that the Federation would like this Board to become part of the national debate that would ensure that the titles of Chiropractic Assistant and Chiropractic Technician have the same meaning across the nation. He expressed his concern related to a migratory standard. He asked the Board to be mindful of the differences between core educational competencies and professional development. He reminded the Board that they are required to set an education standard for Chiropractic Technicians and it is in that respect that he would ask the Board to become part of the national discussion.
- Chair Henrichs informed all in attendance that the Board is only preparing an exam for Chiropractors not the assistants or technicians.
PRACTICE QUESTIONS

Questions Regarding Chiropractic Technician and Chiropractic Radiological Technician Requirements beginning July 1, 2010

Jill Remy (Office of Education and Examination). She explained the pre-certification education. This process ensures that only qualified persons receive credentials. The process begins with educational facilities submitting courses for approval to either the US Dept. of Education or the Wisconsin Educational Approval board. Jill was hoping to have a discussion of scope of precertification along with Guidance from the Board to continue research. Ms. Remy asked that the precertification be broad in scope. She asked the chair to appoint two (2) Board liaisons for this process.

Discussion Regarding Chiropractic State Exam beginning January 1, 2010

Gail Pizziazo shared a PowerPoint presentation with the Board. This presentation outlined the process for the examination.
