PART 2. GRANT AMOUNT CALCULATIONS

A. Enter the total from Part 1. The maximum award at this point is \$7,000.

B. Is the applicant a licensed plumber or contractor that installs private onsite wastewater treatment systems? If yes, enter 2/3 of the amount from section A in this section or \$4,667, whichever amount is less.

If the applicant is not an installer, list the amount from Section A here.

C. If this application is for a small commercial establishment and the annual gross income of the business that owns the small commercial establishment is less than \$362,500, the amount listed in Section B is the total grant award. Carry the amount in Section B forward to Section F.

If this application is for a principal residence and the annual family income of the owner(s) is less than \$32,001, the amount listed in Section B is the total grant award. Carry the amount in Section A forward to Section F.

If this application is for a principal residence and the annual family income of the owner(s) is between \$32,001 and \$44,999, list the amount in Section B here and go on to Section D.

D. Use this section to calculate the grant award for an application for a principal residence where the income of the applicant(s) is between \$32,001 and \$44,999. This application will need to be reduced by 30% of the grant amount for each dollar earned over \$32,000.

$$\begin{array}{r}
 \text{Annual Family Income} \underline{\hspace{2cm}} \\
 \text{Subtract} \qquad \qquad \qquad - \underline{\$32,000} \\
 \text{Subtotal} \qquad \times \quad .30

= List the final calculation in this section and continue to Section E.

E. Subtract section D from section C. This is the maximum grant amount for this applicant. Carry this amount forward to section F.
